

- ① The vaquita porpoise is the world's smallest cetacean and the most endangered marine mammal is endemic to:
- (A) Coral triangle (B) Gulf of California
(C) Mediterranean Sea (D) Gulf of Guinea
2. Consider the following statements:
1. Every individual aged 18 and above has the right to vote in the election.
 2. Voters are allowed to rank the candidates in order of their preference.
 3. Each vote cast holds the same weight in determining the result.
- Which of the above is/are common to the method of election of the members of Rajya Sabha and Lok Sabha?
- (A) 1 only (B) 1 and 2 only
(C) 3 only (D) None of the above is common
3. With respect to Phytoremediation process, consider the following statements:
1. Along with plants, microalgae and seaweeds can be used to remove toxic heavy metals from the environment.
 2. Hyperaccumulator plants are capable of removing high levels of toxic metals like mercury, cadmium and cobalt from the soil.
- Which of the statements given above is/are correct?
- (A) 1 only (B) 2 only (C) Both 1 and 2 (D) Neither 1 nor 2
4. Consider the following activities:
1. Felling of trees
 2. Widening of roads
 3. Erection of electrical cables
- How many of the above is/are Prohibited in the Eco-Sensitive Zones (ESZs)?
- (A) Only one (B) Only two (C) All three (D) None
5. Consider the following Schedules:
1. Fifth Schedule
 2. Sixth Schedule
 3. Eleventh Schedule
- In how many of the above Schedules of the Constitution of India are provisions made for the Constitution of District Councils and Regional Councils?
- (A) Only one (B) Only two (C) All the three (D) None
- ⑥ Which among the following techniques is/are correct with respect to Solar Radiation Modification (SRM) to address global warming?
1. Increasing the number of sulphate aerosols in the stratosphere to increase the reflection of incoming sunlight.
 2. Adding aerosol to the lower atmosphere over ocean regions to increase the reflectivity of low-lying marine clouds.
 3. Modifying the properties of high-altitude ice clouds to increase the transmission of outgoing terrestrial radiation to space.
- Select the **correct** answer using the code given below:
- (A) 1 and 2 only (B) 2 and 3 only (C) 1 and 3 only (D) 1, 2 and 3

7. With reference to the No-confidence motion in the Parliament of India, consider the following statements:
1. It need not state the reasons for its adoption in the Lok Sabha.
 2. To be admitted in the Lok Sabha, it needs the support of at least 100 members.
 3. When the Lok Sabha passes a no-confidence motion against the council of ministers, all the ministers have to resign including those ministers who are from the Rajya Sabha.
- Which of the above statements is/are correct?
- (A) 1 only (B) 2 and 3 only (C) 1 and 3 only (D) 1, 2 and 3
8. With reference to the Power of the President to Consult the Supreme Court, consider the following statements:
1. The President must refer disputes arising under pre-constitutional treaties or agreements to the Supreme Court.
 2. It is the President's discretion to seek the advice while the Supreme Court's opinion under Article 143 is advisory, not binding on the President.
- Which of the statements given above is/are correct?
- (A) 1 only (B) 2 only (C) Both 1 and 2 (D) Neither 1 nor 2
9. Consider the following statements:
1. Nitrosomonas is an example of Chemotrophs that derive energy by oxidising ammonia through chemosynthesis.
 2. Diatoms are phytoplankton that contribute significantly to global oxygen production.
 3. Saprotrophs break down complex organic matter into simpler substances by external digestion.
- How many of the above statements is/are correct?
- (A) Only one (B) Only two (C) All three (D) None
10. Consider the following statements:
1. The term 'Contempt of Court' is explicitly mentioned in the Constitution of India.
 2. The Supreme Court has power to punish for contempt not only of itself but also of high courts, subordinate courts and tribunals.
 3. Criticism of the judiciary's administrative actions amounts to civil contempt.
- Which of the above statements are correct?
- (A) 1 and 2 only (B) 2 and 3 only (C) 1 and 3 only (D) 1, 2 and 3
11. Which one of the following organisms is best known for exhibiting Parasitoid behaviour?
- (A) Tapeworm (B) Lorchanthus
(C) Ichneumon wasp (D) Dragonfly
12. The Representative democratic government's legitimacy primarily derives from:
- (A) The wisdom of elected leaders
(B) The efficiency of governmental institutions
(C) The accountability of representatives to their constituents
(D) The consent of the governed through periodic elections

13.

Consider the following statements:

- I. The budget makes a distinction between the expenditure charged on the Consolidated Fund of India and the expenditure made from the Consolidated Fund of India.
- II. The debt charges for which the Government of India is liable are included in the voted expenditure made from the Consolidated Fund of India.
- III. The expenditure charged on the Consolidated Fund of India is not subjected to the vote of Parliament.

Which one of the following is **correct** in respect of the above statements?

- (A) Both **Statement II** and **Statement III** are correct and both of them explain **Statement I**
- (B) Both **Statement II** and **Statement III** are correct but only one of them explains **Statement I**
- (C) Only one of the **Statements II** and **III** is correct and that explains **Statement I**
- (D) Neither **Statement II** nor **Statement III** is correct

14. Under which of the following circumstances can the Parliament of India make laws on subjects enumerated in the State List?

1. When a Proclamation of National Emergency is in force. ✓
2. When two or more States pass a resolution requesting Parliament to legislate. ✓
3. When the Rajya Sabha passes a resolution by two-thirds of the members present and voting. ✓
4. When President's Rule is imposed in a State. ✓
5. For implementing an international treaty or agreement. ✓

Select the **correct** answer using the code below:

- (A) 1, 2, 4 and 5 only
- (B) 1, 2, 3 and 5 only
- (C) 1, 2, 3, 4 and 5
- (D) 1, 2, 3 and 4 only

15. Which of the following statements correctly distinguishes the powers of the President and the Governor regarding assent to Bills?

- (A) Both the President and the Governor can return a Money Bill for reconsideration.
- (B) The Governor cannot withhold assent to a Bill, while the President can.
- (C) The President can direct the Governor to reserve a State Bill for consideration, but the Governor cannot reserve a Bill on their own.
- (D) The Governor can reserve a Bill for the President's consideration, but the President has wider discretionary powers while dealing with such Bills.

16. Consider the following statements:

1. The Cabinet Secretariat functions directly under the Prime Minister.
2. Cabinet Secretary is the ex-officio Chairman of the Civil Services Board.
3. Cabinet Secretary holds the same order of precedence as Comptroller and Auditor General of India.

Which of the above statements is/are **correct**?

- (A) 2 only
- (B) 1 and 3 only
- (C) 1 and 2 only
- (D) 1, 2 and 3

17. Consider the following provisions:
1. Provide early childhood care and education for all children until they complete the age of six years.
 2. Renounce practices derogatory to the dignity of women.
 3. Safeguard public property and abjure violence.
 4. Render national service when called upon to do so.
 5. Raise the level of nutrition and the standard of living of people and to improve public health.
- How many of the above are Fundamental Duties under the Constitution of India?
- (A) Only two (B) Only three (C) Only four (D) All the five
18. Consider the following statements:
- I. Chairman and members of the Union Public Service Commission (UPSC) and Joint State Public Service Commission (JSPSC) are appointed by the President.
 - II. UPSC and JSPSC are independent Constitutional bodies.
- Which one of the following is **correct** in respect of the above statements?
- (A) Both **Statement I** and **Statement II** are correct and **Statement II** explains **Statement I**
 (B) Both **Statement I** and **Statement II** are correct but **Statement II** does not explain **Statement I**
 (C) **Statement I** is correct but **Statement II** is not correct
 (D) **Statement I** is not correct but **Statement II** is correct
19. Consider the following statements:
- Statement I** : At COP29 in Baku, India refrained from endorsing the New Collective Quantified Goal (NCQG) on climate finance.
- Statement II** : The COP29 NCQG agreement is a legally binding treaty that obligates all signatories to pay their committed amount annually.
- Statement III** : India is concerned that the proposed USD 300 billion target under the NCQG by 2035 would fall short of adequately addressing the climate finance requirements of developing nations.
- Which one of the following is **correct**?
- (A) Both **Statement II** and **Statement III** are correct and both explain **Statement I**
 (B) Both **Statement II** and **Statement III** are correct, but only one explains **Statement I**
 (C) Only one of **Statements II** and **III** is correct and explains **Statement I**
 (D) Neither **Statement II** nor **Statement III** is correct
20. Which of the following is/are explicitly stated in the Constitution of India as fundamental in the governance of the country?
1. Fundamental Rights
 2. Directive Principles of State Policy
 3. Fundamental Duties
- Select the **correct** answer from the codes given below:
- (A) 1 and 2 only (B) 2 and 3 only (C) 2 only (D) 1, 2 and 3
21. According to the Buddhist tradition, there are twenty-four Buddhas. Who among the following is regarded as the first Buddha, who is said to have predicted the coming of the present Buddha Gautama?
- (A) Dipankara (B) Maitreya (C) Konagamana (D) Sujata

22. Consider the following statements:
 I. Each Veda contains four parts such as the Samhita, Brahmana, Aranyaka and Upanishad.
 II. The Brahmanas are prose explanations of the Samhita.
 III. Upanishads introduced new concepts such as atman, rebirth and karma.
 Which of the above statements is/are correct?
 (A) I only (B) I and III only (C) II only (D) I, II and III
23. Consider the following statements regarding the Shimla Agreement (1972):
 1. It was signed between Indira Gandhi (India) and Zulfikar Ali Bhutto (Pakistan) after the Bangladesh Liberation War of 1971.
 2. The agreement converted the ceasefire line of Jammu and Kashmir into the Line of Control (LoC).
 3. It made the United Nations a party to the future resolution of the Kashmir dispute.
 How many of the above statements is/are correct?
 (A) Only one (B) Only two (C) All three (D) None
24. Who among the following did not actively participate in the Civil Disobedience Movement (CDM)?
 1. Muslim League
 2. Hindu Mahasabha
 3. Communist Party of India (CPI)
 4. Peasants and Farmers
 Select the **correct** answer using the code given below:
 (A) 1 and 2 only (B) 1, 2 and 4 only (C) 1, 2 and 3 only (D) 1, 2, 3 and 4
25. With reference to Bioenergy with Carbon Capture and Storage (BECCS), Which of the following statements is/are correct?
 I. It involves capturing CO₂ emitted from biomass-based power plants and storing it underground.
 II. BECCS can result in negative carbon emissions if the biomass is grown sustainably.
 Which of the statements given above is/are correct?
 (A) I only (B) II only (C) Both I and II (D) Neither I nor II
26. What is the primary objective of ISRO's SPaDeX mission?
 (A) To test re-entry and splashdown capabilities for future crew modules.
 (B) To demonstrate autonomous docking between two spacecraft in orbit.
 (C) To validate cryogenic engine performance in long-duration missions.
 (D) To test high-throughput communication satellites in low Earth orbit.

27. Consider the following pairs:

	<i>Social Reform Association</i>	<i>Founder</i>
1.	Atmiya Sabha	Raja Ram Mohan Roy
2.	Indian Social Conference	M.G. Ranade
3.	Social Service League	Gopal Ganesh Agarkar
4.	Truth Seekers Society	Jyotirao Phule

How many of the above pairs is/are **correctly** matched?

- (A) Only one (B) Only two (C) Only three (D) All the four

28. With reference to Zabti system, consider the following statements:
1. It is a revenue system of Akbar adopted from Sher Shah Suri's revenue practices.
 2. Under the system, the tax was collected in cash rather than in kind.
- Which of the above statements is/are **correct**?
- (A) 1 only (B) 2 only (C) Both 1 and 2 (D) Neither 1 nor 2

29. Consider the following information:

Foreign traveller	Visited India during	His famous work
1. Megasthenes	Bindusara	Indica ✓
2. Hiuen Tsang	Harshavardana	Si-yu-ki ✓
3. Ibn Battuta	Muhammad bin Tughlaq	Kitab-ul-Hind ✓

- In how many of the above rows is the given information **correctly** matched?
- (A) Only one (B) Only two (C) All the three (D) None

30. Consider the following statements:

1. Pitt's India Act of 1784 created a new body called Board of Control to exclusively manage the commercial affairs of the East India Company.
2. The Indian Councils Act of 1861 introduced, for the first time, local representation in the Indian (Central) Legislative Council.
3. The Government of India Act of 1919 created a new office of the High Commissioner for India in London.

Which of the above statements is/are **correct**?

- (A) 2 only (B) 1 and 3 only (C) 3 only (D) 1, 2 and 3

31. In which of the following regions was Bulandibagh, an archaeological site where the remains of a wooden palisade and a large spoked wooden chariot wheel with an iron rim were discovered?

- (A) Andhra (B) Gandhara (C) Magadha (D) Kalinga

32. Tardigrades, sometimes seen in the news, are related to which of the following?

- (A) Microorganisms engineered to degrade plastic waste in marine ecosystems
- (B) Extremophilic microscopic animals capable of surviving in outer space
- (C) Genetically modified organisms used in vaccine development
- (D) Ancient marine reptiles discovered in Mesozoic fossil records

33. Consider the following pairs:

	National Park (NP)	Biosphere Reserve (BR)
I.	Mouling NP	Rann of Kachchh BR
II.	Satpura NP	Pachmarhi BR
III.	Campbell Bay NP	Gulf of Mannar BR

In how many of the above rows is the given information **correctly** matched?

- (A) Only one (B) Only two (C) All the three (D) None

34. With reference to the Energy Conservation (Amendment) Act, 2022, consider the following statements:
1. It provides a legal framework for establishing a domestic carbon credit trading scheme.
 2. The Bureau of Energy Efficiency (BEE) is designated as the implementing agency.
 3. The Act mandates all power utilities to purchase carbon credits from the domestic market.
- Which of the statements given above are correct?
- (A) 1 and 2 only (B) 2 and 3 only (C) 1 and 3 only (D) 1, 2 and 3
35. Consider the following Harappan sites:
1. Harappa
 2. Mohenjo-daro
 3. Amri
- How many of the above sites is/are located on the banks of river Indus?
- (A) Only one (B) Only two (C) ~~All the three~~ (D) ~~None~~
36. In the context of History of India, Amrita Sher-Gil, Nandalal Bose and Jamini Roy were known for their contributions to:
- (A) Indian revolutionary movements
 - (B) Revival of Indian handicrafts and textiles
 - (C) Promotion of Vernacular education
 - (D) Development of modern Indian art
37. Benzene is a Volatile Organic Compound (VOC) and a known carcinogen. It is released into the environment from which among the following sources?
1. Petroleum refineries
 2. Varnishes
 3. Synthetic plastics production
 4. Detergents
 5. Tobacco smoke
- Select the correct answer using the code given below:
- (A) 1 and 3 only (B) 2 and 4 only (C) 1, 3 and 5 only (D) 1, 2, 3, 4 and 5
38. Indian Bird Conservation Network (IBCN) is an initiative of:
- (A) Ministry of Environment, Forest and Climate Change (MoEFCC)
 - (B) Bombay Natural History Society (BNHS)
 - (C) Zoological Survey of India (ZSI)
 - (D) Wildlife Institute of India (WII)
39. Which one among the following events is the earliest in the history of India?
- (A) The battle of Rakshasi-Tangadi
 - (B) The visit of Italian trader Nicolo de Conti to India
 - (C) Coronation of Krishnadeva Raya as emperor of Vijayanagara
 - (D) Construction of Chennakeshava temple at Belur
40. Who among the following, mentioned in the Allahabad Pillar Inscription, held the titles Sandhivigrahika, Kumaramatyā and Mahadandanayaka?
- (A) Samudra Gupta (B) Pushyagupta (C) Harishena (D) Rudradaman

41. 'SVAMITVA Scheme' sometime seen in the news is related to:

- (A) Digital mapping of rural drinking water networks
- (B) Drone-based surveying and property ownership validation in rural areas
- (C) Monitoring air quality in urban clusters
- (D) Solar panel installation on public buildings

42. Consider the following pairs:

	Military Exercise	Participating Countries
1.	Exercise Khanjar	India and Kyrgyzstan
2.	Exercise Ekuverin	India and Egypt
3.	Exercise Indra	India and Russia

How many of the above pairs is/are **correctly** matched?

- (A) Only one (B) Only two (C) All the three (D) None

43. 'State of Finance for Nature - Restoration Finance Report' is released by which of the following?

- (A) World Bank (B) United Nations Environment Programme
(C) Asian Development Bank (D) Food and Agriculture Organisation

44. Which of the following is common to Salyut 1, Mir, and Tiangong?

- (A) They are all space telescopes launched for deep space observation.
(B) They are all interplanetary probes launched to study Mars✓
(C) They are all modular spacecraft used in lunar missions.
(D) They are all space stations placed in Earth's orbit.

45. Consider the following statements:

1. Black holes can be detected by observing the gravitational waves they emit when they merge with other massive objects like neutron stars.
2. Black holes are dense holes in space through which objects can travel to other parts of the universe.
3. An event horizon is the boundary around a black hole from which not even light can escape.

Which of the above statements is/are **correct**?

- (A) 1 only (B) 2 and 3 only (C) 1, 2 and 3 (D) 1 and 3 only

46. Consider the following pairs:

	Region	Country
1.	Sumy	Italy
2.	Majorca	Spain
3.	Dubrovnik	Germany

In how many of the above rows is the given information **correctly** matched?

- (A) Only one (B) Only two (C) All the three (D) None

47. Consider the following pairs:

	Emerging Technologies	Often talked in the context of
1.	Quantum dots	Display technology
2.	Neuromorphic chips	Artificial neural networks
3.	Digital twins	Blockchain technology

How many of the above pairs are **correctly** matched?

- (A) Only one (B) Only two (C) All the three (D) None

48. Consider the following banks:

1. New Development Bank (NDB)
2. Asian Development Bank (ADB)
3. Asian Infrastructure Investment Bank (AIIB)

In how many of the above banks is India a founding member?

- (A) Only one (B) Only two (C) All the three (D) None

49. Consider the following countries:

1. Italy
2. Croatia
3. Bulgaria
4. Albania
5. Slovenia

How many of the above countries have a border with the Adriatic Sea?

- (A) Only two (B) Only three (C) Only four (D) All the five

50. Consider the following statements:

Statement I: Small Modular Reactors (SMRs) are particularly suitable for rural and remote areas.

Statement II: SMRs have smaller electrical output capacity, making them compatible with weaker grid systems and can operate off-grid.

Statement III: SMRs rely on passive safety systems that do not require external power or human intervention for emergency shutdown.

Which one of the following is **correct** in respect of the above statements?

- (A) Both **Statement II** and **Statement III** are correct and both of them explain **Statement I**
(B) Both **Statement II** and **Statement III** are correct but only one of them explains **Statement I**
(C) Only one of the **Statements II** and **III** is correct and that explains **Statement I**
(D) Neither **Statement II** nor **Statement III** is correct

51. Consider the following statements regarding the Digital Agriculture Mission:

1. It aims to generate Farmer Identity Cards of 11 crore farmers in the country.
2. Soil Profile Mapping is one of the components under the mission.
3. To implement the scheme, 100% central funding is provided.

Which of the above statements is/are **correct**?

- (A) 1 only (B) 1 and 2 only (C) 2 and 3 only (D) 1, 2 and 3

52. Consider the following properties:
1. Zero electrical charge
 2. Negligible mass
 3. Travel at nearly speed of light
 4. Travel in curved path
- How many of the above is/are the properties of Neutrinos?
- (A) Only one (B) Only two (C) Only three (D) All the four
53. When salt is sprinkled on icy roads during winter, it helps in melting the ice. This process depends mainly upon which of the following?
1. Lowering of freezing point of water
 2. Increase in temperature due to friction
 3. Chemical reaction between salt and ice
- Select the **correct** answer using the code given below:
- (A) 1 only (B) 1 and 2 only (C) 2 and 3 only (D) 1 and 3 only
54. Consider the following diseases:
1. Malaria
 2. Cholera
 3. Pertussis
 4. Chikungunya
 5. Diphtheria
- How many of the above are Bacterial diseases?
- (A) Only two (B) Only three (C) Only four (D) All the five
55. A forensic scientist examining a crime scene finds cells that have thick walls and no centrioles. These cells most likely came from:
- (A) Human skin tissue (B) Animal blood sample
(C) Plant material (D) Virus particles
56. During sunset, the Sun appears reddish-orange in colour. This phenomenon can be mainly attributed to which of the following factors?
1. Scattering of shorter wavelengths by atmospheric particles
 2. Longer atmospheric path length of sunlight during sunset
 3. Absorption of blue light by atmospheric gases
 4. Decrease in temperature of the Sun during evening
- Select the **correct** answer using the code given below:
- (A) 1 only (B) 1 and 2 only (C) 1, 2 and 3 only (D) 1, 2 and 4 only
57. Consider the following statements:
- I. DNA editing makes temporary changes to the genetic material, whereas RNA editing makes permanent changes.
- II. DNA editing tools use proteins from certain bacteria to perform cutting functions while RNA editing relies on ADAR enzymes.
- Which one of the following is **correct** in respect of the above statements?
- (A) Both **Statement I** and **Statement II** are correct and **Statement II** explains **Statement I**
(B) Both **Statement I** and **Statement II** are correct but **Statement II** does not explain **Statement I**
(C) **Statement I** is correct but **Statement II** is not correct
(D) **Statement I** is not correct but **Statement II** is correct

58. Consider the following statements:
1. The Akash missile system, developed indigenously by DRDO, is powered by ramjet engine.
 2. S-400, a Russian made air defence system, can destroy both ballistic and cruise missiles.
- Which of the above statements is/are correct?
- (A) 1 only (B) 2 only (C) Both 1 and 2 (D) Neither 1 nor 2
59. With reference to Major Dhyan Chand Khel Ratna Award, consider the following statements:
1. It is given for the most outstanding performance in sports by a sportsperson over the period of the previous four years.
 2. Gukesh D and Manu Bhaker are the only sportspersons awarded the Major Dhyan Chand Khel Ratna in 2024.
- Which of the above statements is/are correct?
- (A) 1 only (B) 2 only (C) Both 1 and 2 (D) Neither 1 nor 2
60. The principle behind mRNA vaccines, like GEMCOVAC-19 used for COVID-19, is that they:
- (A) Contain live weakened viruses that stimulate immunity
 - (B) Provide ready-made antibodies directly to the patient
 - (C) Instruct cells to produce viral proteins that trigger immune response
 - (D) Block viral replication through chemical inhibitors
61. Consider the following statements:
1. India leads the world in digital payments, accounting for nearly half of global real-time payment transactions.
 2. Digital Payments Index (DPI) is a composite index measuring the extent of digital payments in India was launched and monitored by National Payments Corporation of India (NPCI).
- Which of the statements given above is/are correct?
- (A) 1 only (B) 2 only (C) Both 1 and 2 (D) Neither 1 nor 2
62. Consider the following statements:
1. Bonds are usually more secure and carry lower interest than debentures.
 2. Debentures may be convertible into equity shares whereas bonds generally are not.
- Which of the statements given above is/are correct?
- (A) 1 only (B) 2 only (C) Both 1 and 2 (D) Neither 1 nor 2
63. Consider the following statements:
- Statement I:** Limestone landscapes often develop distinct features like sinkholes, caves and disappearing streams.
- Statement II:** Rainwater reacts with carbon dioxide in the atmosphere to form a weak carbonic acid which dissolves calcium carbonate in limestone.
- Statement III:** The features of limestone topography are mainly the result of weathering caused by temperature variations.
- Which one of the following is correct in respect of the above statements?
- (A) Both **Statement II** and **Statement III** are correct and both of them explain **Statement I**
 - (B) Both **Statement II** and **Statement III** are correct but only one of them explains **Statement I**
 - (C) Only one of the **Statements II** and **III** is correct and that explains **Statement I**
 - (D) Neither **Statement II** nor **Statement III** is correct

64. Consider the following statements:
Statement I: Palaeomagnetism provides strong evidence for the theory of seafloor spreading.
Statement II: Symmetrical magnetic stripes found on either side of mid-oceanic ridges indicate periodic reversal of Earth's magnetic field during the formation of oceanic crust.
- Which one of the following is **correct** in respect of the above statements?
- (A) Both **Statement I** and **Statement II** are correct and **Statement II** explains **Statement I**
 (B) Both **Statement I** and **Statement II** are correct but **Statement II** does not explain **Statement I**
 (C) **Statement I** is correct but **Statement II** is not correct
 (D) **Statement I** is not correct but **Statement II** is correct
65. Consider the following statements:
1. Novak Djokovic is the only male tennis player to be the reigning champion of all four major Grand Slams in a single calendar year.
 2. Jannik Sinner won the Men's Singles title at the 2025 French Open by defeating the defending champion, Carlos Alcaraz.
- Which of the above statements is/are **correct**?
- (A) 1 only (B) 2 only (C) Both 1 and 2 (D) Neither 1 nor 2
66. Which among the following statements is **correct** with respect to the tilt of the Earth's axis?
- (A) The tilt of Earth's axis causes the equator to receive less solar radiation than the tropics throughout the year.
 (B) The axial tilt of Earth results in unequal gravitational pull across the hemispheres.
 (C) The tilt of Earth's axis prevents equinoxes from occurring each year.
 (D) If the tilt of Earth's axis were zero, there would be no variation in day length throughout the year at any latitude.
67. Consider the following statements:
Statement I: The Reserve Bank of India plays the role of a banker to the government.
Statement II: The RBI manages public debt and carries out government's banking transactions like receipt and payment of money.
Statement III: The RBI manages the Ways and Means Advances (WMA) facility to meet temporary cash mismatches of the government.
- Which one of the following is **correct** in respect of the above statements?
- (A) Both **Statement II** and **Statement III** are correct and both of them explain **Statement I**
 (B) Both **Statement I** and **Statement II** are correct and **Statement II** explains **Statement I**
 (C) Only one of the **Statements II** and **III** is correct and that explains **Statement I**
 (D) Neither **Statement II** nor **Statement III** is correct
68. India receives large remittances from its diaspora and earns substantial income from IT services exports. How do these flows affect the Balance of Payments (BoP)?
- (A) They are recorded in the capital account and reduce the fiscal deficit.
 (B) They are recorded in the current account and help reduce the current account deficit.
 (C) They are recorded under capital inflows but do not impact the current account balance.
 (D) They are recorded in the current account but are considered as non-monetary transfers and hence excluded from BoP calculation.

69. Which of the following best describes the Genuine Progress Indicator (GPI)?
- (A) A measure of national income that includes only private consumption and government spending.
 - (B) An index that tracks GDP growth adjusted for inflation and population.
 - (C) A holistic measure of economic progress that accounts for environmental degradation, income inequality and social well-being.
 - (D) A statistical tool used by central banks to forecast inflation and monetary policy needs.
70. Which of the following actions by the RBI would most likely help to control 'Imported inflation'?
- (A) Allowing the rupee to float freely without intervention
 - (B) Increasing the Liquidity Adjustment Facility (LAF)
 - (C) Purchasing government securities through Open Market Operations (OMO)
 - (D) Selling US dollars in the forex market
71. With reference to Goods and Services Tax (GST), consider the following statements:
1. IGST is collected by the Central Government and later distributed between Centre and State.
 2. GST is a destination-based tax, means tax revenue accrues to the state where the goods/services are consumed.
 3. Petroleum products and electricity are currently included under GST.
- How many of the above statements is/are correct?
- (A) 1 (B) 2 (C) 3 (D) Nil
72. With reference to the League of Arab States (LAS), consider the following statements:
1. It is an intergovernmental organization of all Arab states in the Middle East and North Africa.
 2. Somalia, Yemen and Iran are among its members.
 3. Headquarters of LAS is located in Riyadh.
 4. India is an observer in the LAS.
- Which of the above statements are correct?
- (A) 1 and 2 only (B) 1 and 4 only (C) 3 and 4 only (D) 2 and 3 only
73. Consider the following conditions:
1. Expansion of UPI-based payments
 2. Increased public hoarding of cash
 3. Decreased Statutory Liquidity Ratio (SLR) by RBI
 4. Stricter capital adequacy norms
- How many of the above would likely reduce the money multiplier in the economy?
- (A) Only one (B) Only two (C) Only three (D) All four
74. Consider the following statements:
1. India is the fourth largest economy in the world by nominal GDP.
 2. India is the third largest economy in terms of PPP dollars.
- Which of the above statements is/are correct?
- (A) 1 only (B) 2 only (C) Both 1 and 2 (D) Neither 1 nor 2

75. Which of the following are part of SEBI's regulatory framework for ESG (Environmental, Social and Governance) mutual funds in India?

1. Mandatory investment of at least 80% of the fund's corpus in ESG-compliant securities.
2. Registration and regulation of ESG Rating Providers.
3. Voluntary Business Responsibility and Sustainability Reporting (BRSR) for top 1000 listed companies.

Select the correct answer using the code given below:

- (A) 1 and 3 only (B) 1 and 2 only (C) 2 and 3 only (D) 1, 2 and 3

76. The Government presents the following data:

- Revenue Receipts = ₹ 80,000 crores
- Revenue Expenditure = ₹ 90,000 crores
- Capital Expenditure = ₹ 20,000 crores
- Non-debt Capital Receipts = ₹ 5,000 crores
- Interest Payments = ₹ 6,000 crores

$P.D = 10$

What is the Primary Deficit?

- (A) ₹ 13,000 crores (B) ₹ 25,000 crores (C) ₹ 19,000 crores (D) ₹ 31,000 crores

77. Consider the following statements:

1. The Group of Seven (G7) is an informal grouping of seven of the world's advanced economies and the European Union.
2. With the suspension of Russia, the G7 currently comprises only six member countries.
3. Japan, Australia, Canada are members of the G7.

Which of the above statements is/are correct?

- (A) 1 only (B) 2 only (C) 3 only (D) 1 and 2 only

78. Consider the following statements:

1. A higher Interest Coverage Ratio indicates lower risk of loan default.
2. A lower Debt-to-Equity Ratio indicates a better capital structure.

Which of the statements given above is/are correct?

- (A) 1 only (B) 2 only (C) Both 1 and 2 (D) Neither 1 nor 2

79. Consider the following crops:

1. Cotton
2. Lentil
3. Turmeric
4. Copra
5. Safflower

How many of the above crops are covered under Minimum Support Prices (MSPs)?

- (A) Only two (B) Only three (C) Only four (D) All five

80. Consider the following statements:
- Statement I:** In India, Short term Capital gains tax is not applicable on gains arising from the sale of listed equity shares if the Securities Transaction Tax (STT) has been paid.
- Statement II:** STT is levied on both purchase and sale of equity shares traded on recognized stock exchanges.

Which one of the following is correct in respect of the above statements?

- (A) Both **Statement I** and **Statement II** are correct and **Statement II** explains **Statement I**
- (B) Both **Statement I** and **Statement II** are correct but **Statement II** does not explain **Statement I**
- (C) **Statement I** is correct but **Statement II** is not correct
- (D) **Statement I** is not correct but **Statement II** is correct

81. Consider the following statements:

1. Water vapour is the most variable gas in the atmosphere and its net effect is to warm the Earth by trapping heat.
2. Dust particles in the atmosphere act as nuclei for the condensation of water vapour, aiding in cloud formation.
3. The concentration of both water vapour and dust particles increases with altitude and is highest in the upper troposphere.

Which of the statements given above is/are correct?

- (A) 1 and 2 only (B) 2 only (C) 1 and 3 only (D) 1, 2 and 3

82. Which of the following statements best explains why land areas experience more extreme temperature variations compared to ocean areas?

- (A) Ocean water heats faster than land due to its vertical mixing and high mobility.
- (B) Land allows mixing of heat between its layers, reducing surface heating.
- (C) Land has lower specific heat, causing it to heat and cool more rapidly.
- (D) Ocean water reflects most of the incoming solar radiation, leading to minimal heat absorption.

83. A geographic region has the following distinct characteristics:

1. Distinct wet and dry seasons with rainfall concentrated in the summer
2. Dominance of tall grasses with scattered trees like acacia and baobab
3. Frequent wildfires during the dry season contribute to open vegetation

These features are the distinct characteristics of which one of the following regions?

- (A) Steppe (B) Tundra (C) Savanna (D) Taiga

84. Consider the following:

Region	Ocean Current	Nature of Current
1. North Pacific	Kuroshio Current	Cold Ocean Current
2. South Atlantic	Brazil Current	Warm Ocean Current
3. Indian Ocean	Agulhas Current	Warm Ocean Current
4. North Atlantic	Canary Current	Cold Ocean Current

In how many of the above rows is the given information correctly matched?

- (A) Only one (B) Only two (C) Only three (D) All four

85. Which one of the following statements is correct?
- (A) The Chilika Lake, Asia's largest brackish water lagoon, lies to the north of the Mahanadi delta.
- (B) The Loktak Lake, famous for its floating islands, is located in Meghalaya.
- (C) The Pulicat Lake is located at the confluence of Krishna and Pennar rivers.
- (D) The Vembanad Lake lies along the Malabar Coast and is connected to the Pamba River.

86. Consider the following pairs:

River flows	Cultural centre
I. Ganga	Mathura
II. Godavari	Nashik
III. Tungabhadra	Hampi

In how many of the above rows is the given information correctly matched?

- (A) Only one (B) Only two (C) All the three (D) None

87. In India, in which one of the following types of forests is Bamboo a dominant tree species?

- (A) Tropical Evergreen Forests (B) Tropical Thorn Forests
(C) Tropical Moist Deciduous Forests (D) Montane Forests

88. Consider the following statements about millets in India:

1. Millets can be grown in poor and shallow soils with low fertility and moisture-retention capacity.
2. Rajasthan, Karnataka, Maharashtra and Uttar Pradesh are among the top millet-producing states in India.

Which of the statements given above is/are correct?

- (A) 1 only (B) 2 only (C) Both 1 and 2 (D) Neither 1 nor 2

89. Consider the following pollutants:

1. Sulphur dioxide (SO_2)
2. Nitrogen oxides (NO_x)
3. Particulate matter ($\text{PM}_{2.5}$ and PM_{10})
4. Mercury

How many of the above is/are emitted from the Coal based thermal power plants?

- (A) 1 (B) 2 (C) 3 (D) 4

90. Consider the following statements:

1. Monazite is a major source of Rare Earth Minerals in India.
2. Rare Earth Minerals are used extensively in wind turbines, EV motors and solar panels.

Which of the statements given above is/are correct?

- (A) 1 only (B) 2 only (C) Both 1 and 2 (D) Neither 1 nor 2

91. The numbers of rhinoceros, elephants and deer in a sanctuary are in the ratio 5 : 12 : 17. If the difference between the number of rhinoceros and the number of elephants is divisible by both 5 and 7, what is the minimum possible total number of the three types of animals?

- (A) 153 (B) 170
(C) 187 (D) More information is needed

$$z = n + y$$

$$y = n + \frac{1}{3}z$$

92. Sunita cuts a sheet of paper into three pieces. Length of first piece is equal to the average of the three single digit odd prime numbers. Length of the second piece is equal to that of the first plus one-third the length of the third. The third piece is as long as the other two pieces together. The length of the original sheet of paper is:
 (A) 13 units (B) 15 units (C) 16 units (D) 30 units
93. The following sequence is generated by dividing 50 by natural numbers:
 0, 0, 2, 2, 0, 2, x, 2.5,
 What is x?
 (A) 1 (B) 2 (C) 3 (D) 4
94. A distance X km is covered by two different trains with velocity v (in km/h) and kv (in km/h) in y and $(y + 3)$ hours respectively. If $y < 13$, then k is less than :
 (A) $5/8$ (B) $11/16$ (C) $3/4$ (D) $13/16$
95. There are four identically sized and shaped balls in a box, with only its top open. Each ball is of a different colour, these being: Green, Red, White and Blue, only one ball of each colour. Without looking into the box, one ball is randomly picked out and its colour is noted; then it is returned to the box. What are the chances that, in two successive draws, one may get the white ball and the red ball in whichever order?
 (A) $1/16$ (B) $1/8$ (C) $1/4$ (D) $1/2$
96. Three statements are given as $A + B > C + D$, $B + E = 2C$ and $C + D > B + E$. Assuming the statements to be true, then which one of the following follows from the statements?
 (A) $A + B > 2C$ (B) $A + B > 2D$ (C) $A + B > 2E$ (D) $A > C$
97. The age of E is twice the age of S. To find out the difference in their ages, which of the following information is/ are sufficient?
 I. After five years, the ratio of their ages would be 9:5.
 II. Before ten years, the ratio of their ages was 3:1.
 (A) Only I (B) Only II (C) Either I or II (D) Both I and II
98. An hour hand and a minute hand of a clock are at right angles several times during their motion. How many times are they at right angles during their motion in a day from 12:00 noon to midnight?
 (A) 20 (B) 12 (C) 11 (D) None of the above
99. Consider the following statements :
 1. Unit digit in 17^{174} is 7.
 2. Difference of the squares of any two odd numbers is always divisible by 8.
 3. Adding 1 to the product of two consecutive odd numbers makes it a perfect square.
 Which of the above statements are correct ?
 (A) 1, 2 and 3 (B) 1 and 2 only (C) 2 and 3 only (D) 1 and 3 only
100. Which one of the following is the exponent of 10 which divides the number :
 $5^{11} \times 10^{10} \times 35^3 \times 48^3 \times 56^4 \times 75^7$
 (A) 10 (B) 24 (C) 34 (D) 38
